

2021 CAREGIVER WEBINARS

2021 Caregiver Support Webinar Series

Caregivers open their hearts and homes to children across the state. Sometimes caregivers want to know more about the laws and policies that affect them and their foster/kinship children. Join the California Department of Social Services and the California Alliance of Caregivers for webinars on what families need to know about foster youth rights and their own responsibilities. These webinars are a free resource intended for caregivers and those who work directly with caregivers. They are the first Thursday of the month from 2pm-3:30pm. Additional caregiver webinars will be posted in the future.
